## DATA ANALYSIS AND INTERPRETATIONS

---

### 7.0 Introduction

On the basis of filled up Questionnaires, Interview and observations the data has been analysed and tabulated. All the results have been shown under following headlines and sub headlines;

**Section – A:** Status of Higher Educational Institutions under the study

**Section – B:** Status of Collection Development and Weed out Policy

**Section – C:** Status of Library Automation and ICT Infrastructure

**Section – D:** Library Working Hours and Services

**Section – E:** Status of Library Professionals

**Section – F:** Problems in Collection Development and ICT Application

**Section – G:** Use of Libraries and Satisfaction

The data is from selected 25 Higher Educational Institutional libraries which have been coded, tabulated for analysis. These are;

**Figure -6: Growth of Higher Education Institutions in a decade in Sikkim**

Data presented in Table -13 shows the Name of Higher Educational Institutions, establishment year and affiliating bodies which reveals that most of the institutions came into existence after 1975 onwards and thirteen numbers of higher educational institutions were established during 2000 to 2010 which is followed by 08 (32.0 %) higher educational institutions which were established during 1991 to 2000 whereas 04 (16.0 %) institutions were established during 1970 to 1980. The survey findings reveal that maximum numbers of institutions of higher learning were established during 2001 onwards. There is one Central University which was established in the year 2007. There are many State Government Colleges and Institutions established by the State, Central and Private Establishment and growth of institutions in a decade as shown in Figure-5 and 6.

**Figure-7: Types and Number of Higher Educational Institutions in Sikkim**

Data shows in Figure-7 the type Higher Educational Institutions; Central University, Private University, Government College, Private College, Polytechnic, NIT, Agriculture college. Which reveals that 8 (32%) of the institutions are government college, 7 (28%) private college, 4 (16%) Private University, 3 (12%) Government

Polytechnic, 2 (8%) college under Central Govt. and 1 (4 %) Central University are in the state.

(N/A= Not Available)

In Table-20 has been shown availability status of the non-print materials i.e; CD-DVD Books, Online Database in the libraries of higher educational institutions in Sikkim which reveals that out of 25 libraries, SMIMS, SMIT, NIT, have collection in the forms of non-printed.

### 7.3 Library Committee/College Level Library Committee

*Table – 21: Status of Library Committee/ College Level Library Committee in Higher Educational Institution of Sikkim*

Library Committee /College Library Committee	No of Libraries	Percentage
Yes	16	64.00
No	9	36.00
<b>Total</b>	<b>25</b>	<b>100.00</b>

*Figure – 13: Status of Library Committee/College Committee in the Higher Educational Institutions of Sikkim (N=25).*

In Table-21 it has been shown status of the Library Committee/ College Library Committee formed in educational institutions in Sikkim which reveals that out of 25 libraries, maximum number of institution (16= 64.0%) have Library Committee which is followed by 09 (36.0 %) institution have not any committee for the libraries (Figure-13).

#### 7.4 Status of Book Selection Policy

*Table – 22: Status of Book Selection Policy in Libraries of Higher Educational Institution of Sikkim*

Book Selection Policy	No of Libraries	Percentage (%)
Yes	14	56.00
No	11	44.00
<b>Total</b>	<b>25</b>	<b>100.00</b>

*Figure – 14: Status of Book Selection Policy followed by the Libraries of Higher Educational Institutions of Sikkim (N=25).*

Survey findings are as in Table-22 shows that out of 25 institutions of higher learning, 11 (44.0%) libraries have not any book selection policy, whereas only 14 (56.0 %) institutions have the book selection policy (Figure-14). Therefore findings reveal that more than 55% libraries are having book selection/ collection development policy. There is a need to make LIS professionals mainly in the higher educational institution of Sikkim to draft Collection Development Policy for acquiring books, periodicals and e-resources.

## 7.5 Status of Book Purchasing Frequency

The survey finding as shown in Table-23 indicates the status of purchasing frequency of reading materials in the Higher Educational Institutions in Sikkim.

**Table – 23: Status of Book Purchasing Frequency in the Libraries of Higher Educational Institution of Sikkim**

Duration	No of Libraries	Percentage (%)
Yearly	13	52.00
Half Yearly	4	16.00
Through out the year as per recommendation	2	8.00
<b>Total</b>	<b>25</b>	<b>100.00</b>

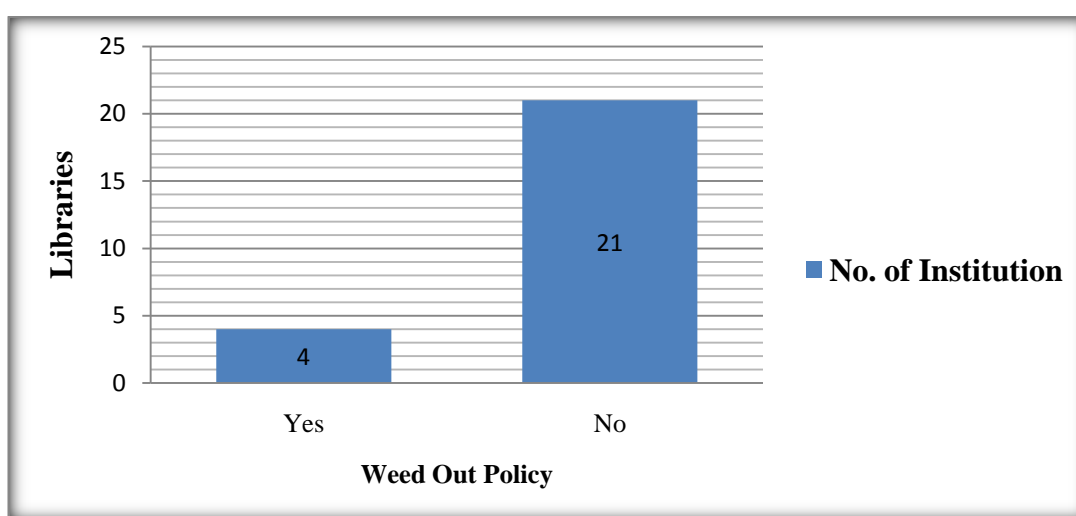

**Figure – 15: Status of Book Purchasing frequency followed by the Libraries of Higher Educational Institutions of Sikkim (N=25).**

Survey findings as shown in Table-23 shows that out of 25 libraries, maximum number of libraries (13= 68.0%) are purchasing yearly basis which is followed by (04 = 21.0 %) which go for half-yearly whereas only few libraries 02 =11.0% Sikkim University and NIT, Sikkim are purchasing throughout the year as per recommendation or requirement of the users (Figure-15).

## 7.6. Weed out Policy of the selected H E Institution in Sikkim

*Table – 24: Status of Weed out Policy Frequency in the Libraries of Higher Educational Institution of Sikkim (N=25)*

Opinion	No. of Institution	Percentage
Yes	4	16.00
No	21	84.00
<b>Total</b>	<b>25</b>	<b>100.00</b>

*Figure – 16: Status of Weed Out Policy frequency followed by the Libraries of Higher Educational Institutions of Sikkim (N=25).*

Table- 24 shows status of the Weed Out Policy followed by the libraries in educational institutions in Sikkim which reveals that out of 25 libraries, maximum number of institution (21= 84.0%) have not adopted any Weed out Policy for discarding old books whereas only 04 (16.0 %) institution have Weed Out Policy for the libraries (Figure-16), to remove old and unusable books from the active collection and keep there documents separately at one place to donate to smaller libraries / public libraries where these documents may be useful.

## 7.7 Physical Form of Catalogue

**Table – 25: Status of Form of Catalogue Frequency in the Libraries of Higher Educational Institution of Sikkim (N=25)**

Type of Catalogue	No. Of Institutions	Percentage (%)
Card Catalogue	6	24.00%
Register	12	48.00%
Computerised	7	28.00%
<b>Total</b>	<b>25</b>	<b>100.00%</b>

*Figure – 17: Status of Physical form of Catalogue frequency followed by the Libraries of Higher Educational Institutions of Sikkim (N=25).*

Survey findings as shown in Table-25 shows that out of 25 libraries, maximum number of libraries (12= 48.0%) Register Catalogue which is followed by (07 = 28.0 %) Computer Catalogue and (06 =24.0%) have Card Catalogue in the libraries (Figure-17).

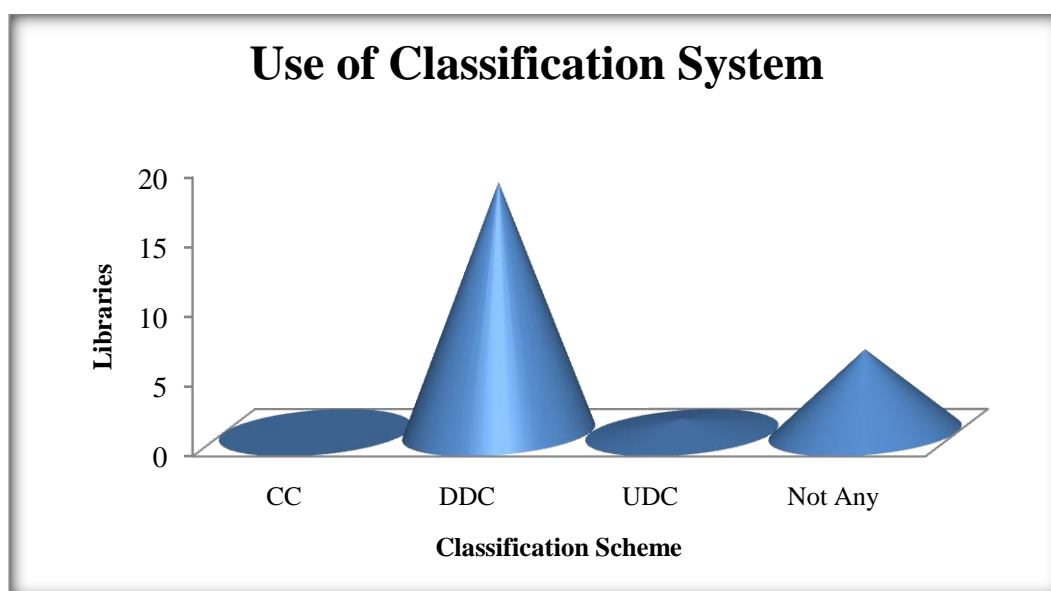

## 7.8 Classification System adopted by the Library

*Table - 26: Status of Classification System used in the Higher Educational Institutions Libraries of Sikkim (N=25)*

Classification	No. Of Libraries	Percentage (%)
CC	0	0.00
DDC	18	72.00
UDC	1	4.00
Not any	6	24.00
<b>Total</b>	<b>25</b>	<b>100.00</b>

(Source: Primary Data obtained from the Questionnaire)

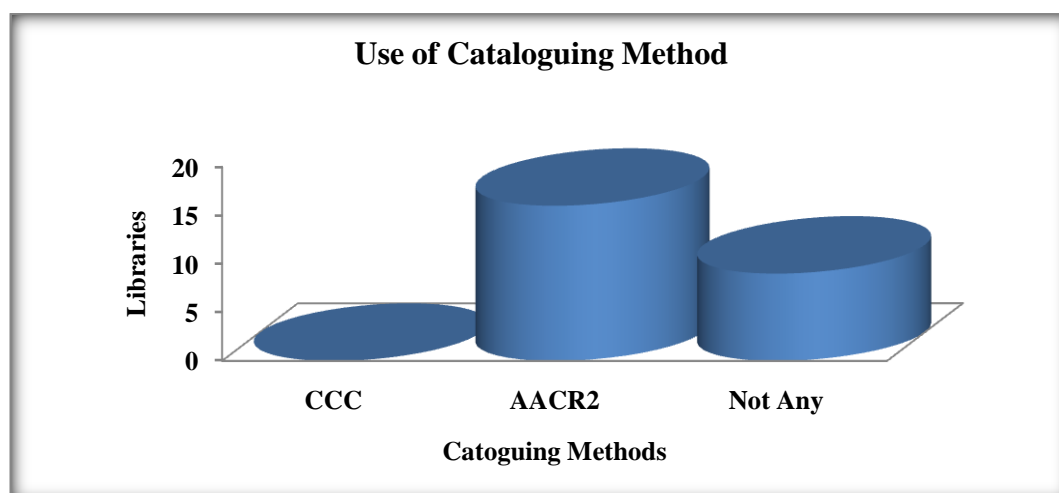

*Figure – 18: Classification System adopted by Libraries of Higher Educational Institutions in Sikkim*

Survey findings as shown in Table-26 shows that out of 25 libraries, maximum number of libraries (18= 72.0%) are using classification scheme DDC basis which is followed by (01 = 4.0 %) UDC and 6 =24.0% are not using any classification scheme for materials in the libraries (Figure-18). The Colon Classification scheme is not used by any institutions.

## 7.9 Cataloguing Method

*Table – 27: Status of Cataloguing method adopted in the Higher Educational Institutions Libraries of Sikkim (N=25)*

Cataloguing Method	No. Of Libraries	Percentage (%)
CCC	0	0.00
AACR2	16	64.00
Not any	9	36.00
<b>Total</b>	<b>25</b>	<b>100.00</b>

*Figure – 19: Cataloguing Method adopted by the Libraries*

Survey findings as shown in Table-27 shows that out of 25 libraries, maximum number of libraries (16= 64.0%) are following AACR2 method of Cataloguing which is followed by (09 = 36.0 %) not using any Cataloguing method in the libraries (Figure-19).

### 7.10. Use of Subject Heading in the Library

**Table - 28: Status of Subject Heading adopted by Libraries of the Higher Educational Institutions (N=25).**

Subject List Heading	No. Of Libraries	Percentage (%)
Sear's List Subject Heading (SLSH)	3	12.00

<b>Total</b>	<b>25</b>	<b>100.00%</b>

**Figure – 22: Type of Internet Service**

Survey findings as shown in Table-32 shows that out of 25 libraries, 10(40%) have BSNL Broadband which is followed by 2 (8.0 %) modem and 1 (2.0%) BSNL Lased line, 1(2.0%) VSAT (Nayuma Cable) and 10(40.00%) libraries have not any Internet connectivity in Libraries of Higher Educational Institutions of Sikkim (Figure-22).

### **7.13. Library Automation of Higher Educational Institutional Libraries of Sikkim**

The Library software plays an important role in the success of ICT in libraries. The computer operating system and networking software indicate the quality and performance of technology being used by the library. Efficient library application software performs the effective operations and procedures of the library, while multi-functional, integrated, modular, and multi-user, multi-security, and user-friendly library software are found more useful to the libraries.

**Figure –23: Status of Availability of Library Automation Software in the Higher Educational Institutions libraries of Sikkim (N=25).**

Survey findings as shown in Table-35 shows the types of Library application software used by the higher educational institutions in Sikkim which reveals that out of 25 libraries, maximum number of libraries (4= 16.0%) are using Libsys which is followed by 03 (12.0 %) libraries which are using SOUL and 02 (8.0 %) libraries each are using Library Manager and Easy Lib software whereas 01 (4.0 %) libraries each are using E-granthalaya, SLIM-21 and In-House developed Library Application Software. Majority of libraries are still not using computerisation for modernisation of library activities and services.

Institution wise analysis as shown in Table-33 reveals that out of twenty five higher educational institutions in the Sikkim, only twelve institutions are using the library software for their library housekeeping operations. Three institutions have SOUL, four institutions NIT, CCCT, ATTC, CAEPHT are using Libsys, one institution EIILMU is using e-Granthalya, SU has SLIM-2 with RFID system, SMIMS & SMIT are using Easylib and two institutions ICFAIU and HPI are using Library Manager and VMSU their own in-house developed software. There are eleven institutions that

have not any library software for their library operation or for library database creation.
