Based on the participants' response and attendance, it is inferred that this event was a grand success. It was very nicely organized by inviting eminent LIS Professionals from different parts

of India who covered a wide range of topics from research Methodologies and Emerging Technologies for Managing Libraries, Online Teaching Learning, and Research. The respondents well took all the lectures. During Question Answer Session, the queries from the participants have been addressed, and most of them were satisfied with the answers given by the resource persons.
