ACKNOWLEDGEMENTS

At the very outset I thank the Almighty for the graces and blessings he had bestowed upon me and enabling me to reach this final stage in my research work.

I convey my heartfelt gratitude to my supervisor Dr.B EswarRao who had been constantly at my back from the time I have began my research. He had been responsible for introducing me to the present area of study while performing the dual duty of shaping my outlook and interests. Indeed I will be indebted to him all my life for every little thing he had taught me and made me what I am today. Without his innovative ideas and inspirational encouragement, I would have reached nowhere today. I shall always be indebted to him. I could not have done without the continuous advice and moral support rendered me by my Co-Supervisor Dr. Jangkhomang Guite. He has given me filial love and had always been there for me. I extend my heartiest gratitude to him. To Prof Sajal Nag I convey my deepest respect and sincere thanks for being my role-model in the sphere of knowledge and his guidance. I have secretly acquired much and learnt plenty from his examples and invaluable advice.

There was a time when I needed soft and calm words as well as encouragement to boost my drooping spirit. This was when I approach someone else beyond my supervisor and co-supervisor in the form of Prof. SudeshnaPurkayastha. I was seldom sent away without receiving kind and endearing words. I therefore, extend my deep gratitude to what she had always meant to me. My thanksgiving would be incomplete without mention made of Prof. ProjitKumar Palit, the Head of the department who never fail to lend a listening ear to my woes and ills. He is also instrumental in helping me maintain a cool disposition even in the face of difficulties. I thank him for all he has been to me.

Although they are not to be seen in the department now, I shall be doing injustice to Dr. Surya Sikha Pathak and Dr. Mary Kim Haokip, if mention is not made of them. They are my source of silent strength and comfort at all times. They never fail to encourage me in many ways. I am grateful to them. Regarding some other forms of aid, I rely a good deal on other professors of whom special mention can be made of Dr. Letkhojam Haokip, who had been instrumental in the course of my work. I sincerely thank him.

In the course of my research, I have sought a lot of help, guidance and encouragement from retired professors outside Assam University. These are profs.Laldena (retired professor Manipur University), Dr. Rev Vanlalhluong Bapui, Dr. Rev HrilrokhumThiek, Dr. Rev L S Khawbung, Rev L Khawbung. I therefore, extend my heartfelt gratitude to them.

There are some very significant professors-expert in my area of study with whom I have come in contact during my data collection and seminars. These are Prof. Biswamoy Pati, Prof. Arabinda Samanta, Prof. Deepak Kumar. Even during the short span of contact, they managed to encourage and turn my heart towards the right direction. I am deeply thankful to them.

Research is impossible without a sound financial footing which I have none. However, this problem was solved due to the kind intervention of organizations. Indian Council of Historical Research which has granted me financial aid to help me tide over the same problem. I therefore, extend my deepest gratitude to Indian Council of Historical Research for giving me the opportunity to be able to complete my work.

It is with a sincere heart that I extend my deep felt gratitude to friends who had lent a helping hand wherever and whenever necessary. In this regard, I would like to mention a few names PaominthangHaokip, Dr. GinneoHaokip, Dr. Lalhrilmoi Hrangchal, Johan, Joseph, Santosh Borah, Maidul Rahman, LalnghatsangLungtau, Roythangthuom Bapui, Lalbiak Phoitong and others Friends. They were helpful to me technically and in any way friends could be of help.

The research work I have taken up would not have been possible without data to rely on. I have collected these from various archives like Government of Assam,Office of the Directorate of Archives, Assam, Dispur, Government of West Bengal,Higher Education Department, Directorate of State Archives, Kolkata, Government of India, National Archive of India, Janpath, New Delhi, and libraries such as North-Eastern Social Research Centre, Guwahati, Central Library, Assam University, Silchar, Director General National Library, Belvedere, Alipur, kolkata, National Medical Library, Directorate General of Health Services, Ansari Nagar, Ring Road, New Delhi, Mobile Theological School Library, Haflong, North-East Regional Centre, Indian Council of Historical Research, Guwahati. The staff of these archives and

libraries has extended all possible help during my stay in each of them. I would like them to know that I am much grateful to them.

I shall not be able to forgive myself if I forget to mention my family members and their contribution towards the completion of my work. They were a constant source of encouragement in every possible way. I thank them immensely.

Finally, I would like to conclude my acknowledgement with sincere thanks on other faculty and staff of History Department, Assam University Silchar for every possible help extended to me during my tenure of research in the department. I also thank the University for being instituted to enable my scholarship.
