

# DECLARATION

Sri Pankaj Saikia, bearing Registration No. Ph.D./1458/2011, dated 18/04/11 declare that the subject matter of the thesis entitled “A Study on Inequality and Quality of Life among the Tiwa Tribe in Morigaon and Nagaon Districts of Assam” is the record of work done by me and the contents of this thesis did not form the basis for award of any degree to me or to anybody else to the best of my knowledge.

This thesis is being submitted to Assam University for the degree of Doctor of Philosophy in Economics.

# ACKNOWLEDEMENT

At the very outset, I extend my heartiest gratefulness to all the people who extended their valuable support and suggestions to make this study of mine, a reality, a dream come true.

First of all, I am highly obligated to my supervisor Dr Ritwik Mazumder for his valuable guidance and advice during the entire course of this study. I am indebted to him for sparing his valuable time and thought at every stage of this study. His interest in the topic and caring nature was the driving force for me to complete the study.

I must thank all the teachers of Economics Department, Assam University, for their valuable advice and suggestions. I am also thankful to the staff of Tribal Research Institute, Guwahati, Block Development Officers of Morigaon and Nagaon districts, Village Officers and Community leaders in providing necessary information for the study. I must extend my sincere thanks to the Principal, Dhing College, for allowing me to do this study without which I would not have completed my Ph.D. I am thankful to Prof Inamul Haque, Prof Sujit Sharma, Prof Mriganka Saikia of the Department of Economics, Dhing College, who have helped me in all possible ways in the completion of this work.

I am indebted to the staff members of different libraries, particularly Assam University library, Gauhati University library, Tezpur University library, Jamia Millia Islamia library, Kurukshetra University library and Dhing College library.

I am thankful to a large number of friends, well wishers and relatives for extending their cooperation at different stages of the study. Mr Paranan Konwar, Assistant Professor, Sonari College, deserves special thanks for his encouragement and support. I greatly benefitted from his critical comments and suggestions.

My special thanks are to Pangkul Preetam Doley, Mofidul Islam, Lakhinandan Bordoloi, Ranjit Bordoloi, Ajit Sharma, Manikuz Zamman Chowdhury, Bhargav Shekhar Bhuyan for their unconditional support. I am also thankful to Parthajit Baruah, Govind Bhandari, and Hemanta Saikia who encouraged me during the entire period of my study.

Last, but not the least, I will remain ever grateful to my father Late Rupan Chandra Saikia who blesses me from heaven and my mother Tilu Saikia who still considers me as a small boy '*Maina*'. Special thanks to my two elder sisters, Pila and Moina, and my brothers Pranjal and Ganesh for their unwavering support, motivation and whole-hearted encouragement throughout the study.

I thank almighty God for all the blessings showered on me, and also hold personal responsibility for any shortcoming in this study.

Silchar

*(Pankaj Saikia)*

## LIST OF TABLES

<b>Table</b>	<b>Title</b>	<b>Page</b>
1.1	Population and Percentage of Major STs of Assam	9
1.2	District wise Percentage Distribution of Tiwa Population	13
1.3	Socio-economic features of Major STs of Assam	13
1.4	Literacy Trends Among Major Scheduled Tribes of Assam	14
1.5	Some Selected Demographic features of Morigaon and Nagaon districts of Assam	19
3.1	Variables used in Regression Models	73
3.2	List of Variables with Symbols and Descriptions for Binary Logit Model-I	75
3.3	List of Variables with Symbols and Descriptions for Binary Logit Model-II	76
3.4	Selection of Sample Tiwa Households of Morigaon and Nagaon districts of Assam	91
4.1	Age Composition of the Members of the Households	94
4.2	Distribution of all sample members by age	94
4.3	Gender Composition	95
4.4	Household Size	96
4.5	Sex Ratio of the Members of the Tiwa Households	96
4.6	Type of family	96
4.7	Marital Status among the Head of the Households	97
4.8	Marital Status among the Members of the Households	97
4.9	Literacy Rate of Sample Tiwa people by Sex	98
4.10	Literacy Rate	98
4.11	Educational Attainment of the Head of the Household	98
4.12	Educational Attainment of the Members of the Household	99
4.13	Type of House	100
4.14	Floor Area	101
4.15	Number of Rooms	101
4.16	Persons per Rooms	102
4.17	Distribution of Number of Persons per Rooms	102
4.18	Floor Structure	103

<b>Table</b>	<b>Title</b>	<b>Page</b>
4.19	Sanitation Facility	104
4.20	Accessibility to Safe Sanitation Facility	104
4.21	Sources of Drinking Water	105
4.22	Improved and Unimproved Principal Source of Drinking Water	105
4.23	Accessibility of Drinking Water Within and Across Different Occupations	106
4.24	Availability of Pure Source of Drinking Water	107
4.25	Percentage of Households under Electricity Connection	107
4.26	Type of Fuel used for Cooking	108
4.27	Road Connectivity to the Sample Villages	109
4.28	Percentage Distribution of Principal Earner of the Households by Occupation	111
4.29	Distribution of Work Participation Rate (WWP) and Composition of Main and Marginal Workers of STs	112
4.30	Distribution of Work Participation Rate (WWP) and Composition of Main and Marginal Workers among Sample Tiwas	114
4.31	Block wise Percentage Distribution of Occupations by Sex	114
4.32	Percentage Distribution of Tiwa Woman by Occupation	115
4.33	Employment of Women across Different Occupations by Level of Education	117
4.34	Percentage Distribution of Occupational Sustainability of Sampled Tiwa Households	118
4.35	Occupation wise Distribution of Total Income and Total Expenditure	120
4.36	Share of Different Food and Non-food Items among BPL and APL Households (in percentage)	121
4.37	Summary Statistics of Monthly Per Capita Income across Occupations	123
4.38	Summary Statistics of Monthly Per Capita Consumption Expenditure across Occupations	124
4.39	Frequency Distribution of Monthly Per Capita Income among Sample Tiwa Households (N=442)	124
4.40	Frequency Distribution of Monthly Per Capita Income among Sample Tiwa Households of Morigaon and Nagaon districts	125

<b>Table</b>	<b>Title</b>	<b>Page</b>
4.41	Occupation wise Households distribution on the basis of Monthly Per Capita Income	126
4.42	Distribution of Sample Tiwa Households on the basis of Monthly Per Capita Consumption Expenditure (MPCE)	128
4.43	Occupation wise Households distribution on the basis of Monthly Per Capita Consumption Expenditure (MPCE)	129
4.44	Inequality measures Calculated on the basis of Monthly Per Capita Income among Tiwas in Morigaon District (N=275)	133
4.45	Inequality measures Calculated on the basis of Monthly Per Capita Income among Tiwas in Nagaon District (N=167)	134
4.46	Inequality measures Calculated on the basis of Monthly Per Capita Consumption Expenditure among Tiwas in Morigaon District (N=275)	135
4.47	Inequality measures Calculated on the basis of Monthly Per Capita Consumption Expenditure among Tiwas in Nagaon District (N=167)	136
4.48	Gini Coefficient among Different Occupations	137
4.49	Inequality in Education Within and across Occupations based on Monthly Per Capita Expenditure on Education (MPCEEDU)	138
4.50	Inequality in Health Within and across Occupations based on Monthly Per Capita Expenditure on Health (MPCEH)	139
4.51	Dimension Indices and Household-level HDI Value	141
4.52	Indicators of IHLDI and Atkinson's Inequality Measure	141
4.53	Dimension Indices and Household Level Quality of Life index among Sample Tiwa Households	142
4.54	Block wise Dimension Indices of Household Level Quality of Life index	144
4.55	Block Wise Overall Household Level Quality of Life Index (HQLI)	145
4.56	Occupation wise Dimensional Indices of Household Level Quality of Life Index	146
4.57	Households' Level Quality of Life Index (HQLI) by Occupation	148
4.58	Occupation wise Households Level Quality of Life Index (HQLI) on the basis of Working Status of Women	148

<b>Table</b>	<b>Title</b>	<b>Page</b>
4.59	Correlation matrix between scores of HQLI and related Continuous Variables of Sample Tiwa Households of Nagaon district (N=167)	150
4.60	Correlation matrix between scores of HQLI and related Continuous Variables of Sample Tiwa Households of Morigaon district (N=275).	150
4.61	Correlation matrix between scores of HQLI and related Continuous Variables among Sample Tiwa households (N=442)	151
4.62	Regression Results – Determinants of Monthly Per Capita Consumption Expenditure (MPCE) of Tiwa Households (N=442)	155
4.63	Regression Results – Determinants of Households Education Score (EDUS) of Tiwa Households (N=442)	159
4.64	Regression Results – Determinants of Household Health Score (HS) of Tiwa Households (N=442)	163
4.65	Regression Results – Determinants of Housing Quality Status (HQS) of Tiwa Households (N=442)	166
4.66	Regression Results – Determinants of Household Level Quality of Life Index (HQLI) of Tiwa Households (N=442)	170
4.67	Binary Logit Estimates of the Determinants of Women Workforce Participation (WWP) at the Households Level (N=442)	174
4.68	Binary Logit Estimates of the Determinants of Women Workforce Participation (WWP) of Working Age Group Women (N=532)	175

# CONTENTS

	Page No
Declaration	I
Certificate	II
Acknowledgement	III-IV
List of Tables	V-VIII
List of Figures	VIII
<b>CHAPTER- 1</b> Introduction	<b>1-33</b>
1.1 Statement of the Problem	
1.2 Tribes of Assam	
1.2.1 Historical Origin of Tiwa Tribe	
1.2.2 Location of Tiwa Settlements	
1.3 Profile of the Study Area	
1.3.1 A Brief Profile of Morigaon District	
1.3.2 A Brief Profile of Nagaon District	
1.4 Theoretical and Conceptual Framework	
1.4.1 Inequality	
1.4.2 Quality of Life	
1.5 Rationale of the Study	
1.6 Objectives	
1.7 Hypotheses	
<b>CHAPTER-2</b> Review of Literature	<b>34-62</b>
2.1 Studies on Inequality	
2.2 Studies on Women Workforce Participation	
2.3 Studies on Quality of Life	
2.4 Research Gap	

- 3.1 Measurement of Inequality
- 3.2 Inequality Adjusted Development Index
- 3.3 Break up of Quality of Life Indicators
  - 3.3.1 Economic Index
  - 3.3.2 Health Index
  - 3.3.3 Education Index
  - 3.3.4 Housing Quality Index
- 3.4 Econometric Methods
  - 3.4.1 Multivariate Regression Model
  - 3.4.2 Logit Regression Model
  - 3.4.3 Operational Definition of Selected Variables
- 3.5 Data-Nature and Source
  - 3.5.1 Sample Design

- 4.1 Profile of the Sample Households
  - 4.1.1 Demographic Characteristics
  - 4.1.2 Literacy and Educational Pattern
  - 4.1.3 Housing and Civic Amenities
  - 4.1.4 Occupational Distribution
  - 4.1.5 Income Distribution Pattern
  - 4.1.6 Descriptive Statistical Analysis
- 4.2 Analysis of Inequality
  - 4.2.1 Results of Inequality in Morigaon District
  - 4.2.2 Results of Inequality in Nagaon District
  - 4.2.3 Gini Coefficient across Occupations
  - 4.2.4 Inequality in Health and Education
  - 4.2.5 Inequality Adjusted Household level Development Index
- 4.3 Analysis of Quality of Life
- 4.4 Econometric Analysis.
  - 4.4.1 Correlation Analysis
  - 4.4.2 OLS Regression Analysis

4.4.3 Binary Logit Regression Analysis

**CHAPTER-5 Summary and Policy Suggestions 176-192**

5.1 Summary of Principal Findings

5.2 Policy Suggestions

5.3 Drawbacks and Possible Extensions of the Study
