

Declaration

I, **Malabika Das**, bearing Registration No: Ph.D/1455/2011, dated 18-04-2011, hereby declare that the subject matter of the thesis entitled "**Agricultural Marketing and Agricultural Growth: A Case Study of Barak Valley**" is the record of work done by me and that the contents of this thesis did not form the basis for award of any degree to me or to anybody else to the best of my knowledge. The thesis has not been submitted in any University/Institute.

This thesis is being submitted to Assam University for the degree of Doctor of Philosophy in Economics.

Place: Silchar
Date: December 23, 2014

(Malabika Das)

ACKNOWLEDGEMENT

It was in 2009 while I completed my Master's in Economics from Assam University. I remember my father lamenting about me on his death bed that being the youngest in our family and school learner at that time he might not be there to see the end of my academic career. He, however, has blessed me that even in his absence I would be able to accomplish the highest academic qualification. I also often recall my father's advise to my brothers that they should not engage themselves in agricultural activities as he realized that it is extremely difficult for the farmers to ensure a secure and decent life for themselves and their progeny. These two uttering have kept on haunting me and have become the driving force of my life as I struggled to find a niche for myself. They have guided me to venture for Ph D degree on a topic that had been raised by my father: As to why agriculture is no more remunerative? I tried to investigate as to what role is played by agricultural marketing in the promotion of agricultural growth.

I take this opportunity to thank my supervisor Professor Niranjan Roy who has not only shown me the way by way of taking me into the domain of research but also encouraged me all along to remain steadfastly focused on the goal. Besides academic guidance, I have been profusely benefited from his social network while conducting my field survey in the villages of Barak Valley. I have enjoyed the liberal academic environment in which I was groomed under his supervision and also thankful to him for his care and attention without which it would have not been possible for me to reach to the end of my academic pursuit.

I wish to put on record my special thanks to Dr Avijit Debnath, Department of Economics, Assam University, who has not only taught me in postgraduate classes but also extended a helping hand in making sense of index construction and guided me to accomplish the same. He indeed tirelessly worked to bridge my knowledge-gap particularly in quantitative measurements which have gone into making this study.

I am thankful to my teachers, non-teaching staff and fellow researchers of the Department of Economics, Assam University, for providing me an excellent academic environment that has helped keep going on the face of various challenges.

I would like to express my gratitude to Mr Biswajit Dhar, Inspector, Department of Agriculture, Office of the District Agriculture Officer, Cachar, Silchar; Mr Ranjit Sarkar, ADO, Department of Agriculture, Office of the District Agriculture Officer, Hailakandi; Mr Sudipta Deb, ADO, Department of Agriculture, Office of the District Agriculture Officer, Karimganj; Ms Alpana Paul, Office of the Deputy Director of Economics and Statistics, Karimganj; Mr Sumon Choudhuri, Office of the Deputy Director of Economics and Statistics, Cachar; and Mr Ranobijoy Bhattacharjee, Office of the Deputy Director of Economics and Statistics, Hailakandi, for their unstinted help and support in data collection and conduction of village level survey. I am also thankful to the Village Level Extension Workers (VLEW) in the three districts of Barak Valley who helped me in conducting the village level surveys.

I am thankful to Debabrata Sutradhar, Asha Sutradhar, Monalisa Das, Sanjib Debnath, Subodh Chandra Das, Tanuj Mathur and Ujjwal Paul for solidly standing behind me and supporting me with all their might in my endeavour.

I wish to thank the librarians of Assam University, Silchar, North Eastern Hill University, Shillong, Indian Council of Social Science Research-North Eastern Regional Centre, Shillong, Gauhati University, Guwahati, University of North Bengal, Siliguri, Indian Statistical Institute (ISI), Kolkata, Institute of Development Studies-Kolkata, National Institute of Technology Silchar, for giving me access to their libraries for consultation of relevant literature.

I am thankful to UGC, New Delhi, for providing me Rajiv Gandhi National Fellowship which has facilitated my academic journey to a large extent leading to the submission of the extant thesis.

Last but not the least, my acknowledgement will remain incomplete if I do not mention my immeasurable debt to my elder sister Prof Bela Das, Department of Bengali, Assam University, for her support, patronage and encouragement that has acted as the rock-bottom to all my endeavors. A special thanks to Tamoghna, my nephew, for being my constant company at the time of stress and strain.

List of Tables	
List of Figures	
Chapter 1: Introduction	1-15
1.1 Statement of the Problem	
1.2 Theoretical and Conceptual Framework	
1.3 Rationale of the Present Study	
1.4 Objectives of the Study	
1.5 Hypotheses	
1.6 Methodology	
1.7 Organization of the Study	
Chapter 2: Review of Literature	16-39
2.1 Agricultural Marketing: The International Experience	
2.2 Agricultural Marketing: The National Experience	
2.3 Agricultural Marketing: The Regional Experience	
2.4 Agricultural Marketing: The Barak Valley Experience	
2.5 Conclusion	
Chapter 3: Agriculture and Marketing Infrastructure in Barak Valley	40-76
3.1 Status of Agriculture in Assam and Barak Valley	
3.1.1 Land Use Pattern	
3.1.2 Availability of Cultivable Land	
3.1.3 Area under Irrigation	
3.1.4 Yield Rate	
3.1.5 Major Crops	
3.1.6 Cropping Intensity in Assam	

- 3.1.7 Crop Diversification
- 3.1.8 Average Holding
- 3.2 Agricultural Marketing
 - 3.2.1 Types of Agricultural Markets
 - 3.2.2 Agricultural Marketing Infrastructure
 - (i) Storage Infrastructure
 - (ii) Cold Storage
 - (iii) Grading
 - (iv) Agmark
 - (v) Market Information System
 - (vi) Transport and Communication Infrastructure
 - (vii) Processing Infrastructure
- 3.3 Conclusion

Chapter 4: Profile of Sample Study Locations

77-110

- 4.1 Administrative Evolution of Barak Valley
- 4.2 Economy of Barak Valley
 - 4.2.1 Land Use Pattern in Barak Valley
 - 4.2.2 Sectoral Analysis of Gross District Domestic Product (GDDP)
- 4.3 Agricultural Marketing Infrastructure under Assam State Agricultural Marketing Board (ASAMB)
 - 4.3.1 Paddy Procurement
- 4.4 Profile of the Sample Agricultural Circles
- 4.5 Profile of the Sample Villages
 - 4.5.1 Physical Infrastructure
 - 4.5.2 Social Infrastructure
 - 4.5.3 Agricultural Marketing Infrastructure
- 4.6 The Sample
 - 4.6.1 Village-wise Distribution of Sample Households
 - 4.6.2 Sample Households by Occupational Status
 - 4.6.3 Sample Households by Holding Size
 - 4.6.4 Sample Households by Status and Type of Irrigation Facilities

4.6.5	Cultivable Area under Sample Households by Type of Cropping	
4.7	Conclusion	
Chapter 5:	Analysis of Sample Data	111-134
5.1	Construction of Agricultural Marketing Facilities Index (AMFI)	
5.2	Production and Marketable Surplus	
5.2.1	Agricultural Marketing Facilities (AMFI) and Marketable Surplus (MS)	
5.3	Agricultural Marketing Facilities (AMFI) and Marketed Surplus (MTS)	
5.4	Agricultural Marketing Facilities (AMFI) and Capital Accumulation (CA)	
5.5	Agriculture Marketing and Agricultural Growth	
5.6	Conclusion	
Chapter 6:	Findings, Recommendations And Conclusion	135-145
6.1	Findings from Secondary Data	
6.2	Findings from Primary Data	
6.3	Broad Conclusion	
6.4	Suggestions and Policy Recommendations	
6.5	Limitations of the Study and Future Scope for Research	
Appendix		146-151
3.1	Land Use and Irrigation Statistics by Major State in India during 2007-08	
3.2	Number of Whole Sale, Rural Primary & Regulated Markets in India	
3.3	Storage Facilities in India (Major States) under State Warehousing Corporations	
3.4	State-wise Cold Storage Facilities in India (2009-10)	
3.5	State-wise Agmark Nodes in India (2009-10)	
3.6	Totals and Surfaced Length of Roads in India	
Bibliography		152-162

List of Tables

No	Title of Table	Page No
3.1	Land Use Pattern 2010-11	41
3.2	District-wise Cultivable Area in Assam: 2010-11	43
3.3	District-wise Irrigated Area in Assam: 2010-11	46
3.4	Area, Production and Average Yield of Foodgrains and Non-Foodgrains 2010-11	48
3.5	Area, Production and Yield of Rice	49
3.6	Cropping Intensity in Assam 2010-11	50
3.7	Percentage Share of Principal Crops in Total Cropped Area in Barak Valley, Assam and India	53
3.8	Holding and Area Operated 2010-11	54
3.9	Number of Whole Sale, Rural Primary and Regulated Markets	59
3.10	Storage Facilities under Assam State Warehousing Corporation	61
3.11	District-wise Cold Storage in Assam (2013)	63
3.12	State-wise Grading Facilities in India (2009-10)	65
3.13	Distribution of Agmark Nodes in Assam (2013)	68
3.14	District-wise Length of PWD Roads in Assam (in km)	70
3.15	District-wise Distribution of Registered Factories in Assam, 2011	71
4.1	Land Use Pattern in Barak Valley 2010-11	79
4.2	Sectoral Contribution in Gross District Domestic Product 2007-08	81
4.3	Details of Primary Sector Contribution in Gross District Domestic Product 2007-08	82
4.4	Details of Secondary Sector Contribution in Gross District Domestic Product 2007-08	84
4.5	Details of Tertiary Sector Contribution in Gross District Domestic Product 2007-08	86
4.6	Agricultural Marketing Infrastructure under ASAMB	87
4.7	Paddy Procurement Centers and Targets for KMS under Assam State Agricultural Marketing Board	88
4.8	Agricultural Sub-Division and ADO Circles in Barak Valley	89
4.9	District, Sub-Division, and ADO Circles in Barak Valley	90
4.10	Agricultural Sub-Division, Sample ADO circles, and Villages in Barak Valley	91
4.11	Population of the Sample Villages by Sex	92
4.12	Area of the Sample Villages and their Distance from District Headquarters	93

No	Title of Table	Page No
4.13	Physical Infrastructure Availability in the Sample Villages	94
4.14	Social Infrastructure Availability in the Sample Villages	95
4.15	Agricultural Marketing Infrastructure Availability in the Sample Villages	97
4.16	Sample Size	98
4.17	Population of the Sample Villages by Work Category	100
4.18	Distribution of Sample Households according to Holding Size	101
4.19	Cultivable Area under Sample Households by Holding Size	102
4.20	Types of Irrigation in the Sample Villages	105
4.21	Cultivable Land by types of cropping among the Sample Households	107
5.1	Vehicle Own by the Sample Households	112
5.2	Mode of Transportation of Agricultural Produce to Market by the Sample Households	113
5.3	Availability of "Other Facilities" for the Promotion of Agricultural Marketing in the Sample Villages	113
5.4	Mean and Standard Deviation of the Dimensions and AMFI	115
5.5	Particulars of Production of Winter Rice in the Sample Villages during 2012-13	116
5.6	Particulars of Marketable Surplus of Winter Rice in the Sample Villages, 2012-13	117
5.7	Regression Results for Impact of Agricultural Marketing Facilities (AMFI) on Marketable Surplus (MS)	119
5.8	Production, Marketable Surplus and Marketed Surplus of Winter Rice in the Sample Villages during 2012-13	121
5.9	Regression Results for Impact of Agricultural Marketing Facilities (AMFI) on Marketed Surplus (MTS)	123
5.10	Particulars of Capital Accumulation in the Sample Villages during 2012-13	125
5.11	Regression Results for Impact of Agricultural Marketing Facilities (AMFI) on Capital Accumulation (CA)	126
5.12	Particulars of Family Size of the Sample Households	129
5.13	Particulars of Holding Size of the Sample Households	130
5.14	Regression Results for Impact of Agricultural Marketing Facilities (AMFI), Family Size (FS), Holding Size (HS) and Average Price Per Quintal of Paddy (APPQP) on Total Production of Paddy in Quintals (TPPQ)	131
