ACKNOWLEDGEMENTS

The thought of doing doctoral study in mass communication has been in my mind ever since I completed Masters in Mass Communication. I would dream about it but sincerely I could not see myself doing it. The main reason of having this negative thought is that staying in the remotest corner of the country, Mizoram and not being able to go outside for studies anymore because of family problems and job obligation. But today, my dream has been turned into reality.

First and foremost, I would like to thank the Almighty. My prayers are not in vain; he always stood by my side at all times and I proved that he loves me deeply.

I express my deep sense of gratitude to Prof. K V Nagaraj, for his able guidance without which the study would not have been possible. I strongly believe that Prof. Nagaraj is an angel sent by God to be my guardian angel. Right from the time I came to know him, I have faith in him. His vast experience and deep insight into mass media research virtually thrashed out all incongruences and guided the study onto the right track. His enlightened criticism and openness made me confident to delve deep into the topic in which no academic work has been undertaken in Mizoram. My dream has been turned into reality with the help and guidance of him. Words cannot be enough to express my sincere thanks.

I must express my heartfelt gratitude to the Department of Mass Communication Assam University, to facilitate my enrollment to doctoral research as a part time student.

My sincere thanks to my dear friend Malsawmdawngliana, who was there for me from the very beginning of starting my thesis synopsis. His vast experience and high academic qualification was a blessing for me in moulding my thesis to be a good, reliable and professional one.

I am especially thankful to LallianzualaFanai, a student of the Department of Mass Communication, Mizoram University batch of 2011 – 2013. He helped me in collecting data and was always ready to do anything to bring the thesis into its proper form.

Since the research is historical and descriptive, I owe my special thanks to all the electronic media houses such as All India Radio, Aizawl station, Doordarshan Kendra Aizawl, Skylinks Cable, LPS Vision and Zonet Cable for sharing with me all their official documents. The study would not have been possible without the cooperation and support of them. I express my special gratitude to all of them.

My sincere thanks are also due to all the people who spared their valuable time for interview. Though I cannot mention them personally, my heartfelt thanks to all because without their help this thesis would not be able to have its present form.

Last, not the least my heartfelt gratitude to my family. My husband Dr. C Lalduhsaka, who was always there for me, supporting me in whatever way I needed and encouraging me specially in times when I felt low, my beloved daughter LalhlunpuiiChawngthu, born on July 31st, 2014, who shares my sorrows and happiness and my sister Juliet Zohmingliani, who would accompany me to Silchar many times during the studies and Valarie Tlangthanzari who is always extending her helping hand for the success of the study.

I do not know if it is possible to dedicate a thesis to anyone. But if it is, then I would like to dedicate this study to my Dad and Mom (J. Sawilaia and G Chawngzami) who left this world for their heavenly abode. We dreamt together but today when this dream turns into reality, I cannot share the joy and happiness with them in flesh. But I would like to mention that I have a feeling that I share with them in spirit. I am very sure that this success is only because of their untiring prayers and love they bestow upon me.
